FEDERAL COMMUNICATIONS COMMISSION
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Extended Frequencies Justification for Certification of Transmitter with FCC ID:
2AIQA-CMVAD100

Dear Sir or Madam:

This transmitter was designed to operate in the following frequency range:

| Frequency Range (MHz) | Part 90 State and Local | Federal |
|-----------------------|-------------------------|---------|
| 136-150.000 | | X |
| 150-173.390 | X | X |

This radio is used by Federal, State and Local law enforcement agencies as indicated in the table above. Transmitters sold to authorized federal agencies will be equipped to allow transmission on frequencies within 136.000 to 173.390 Mhz. Those sold to state and local law enforcement agencies will only be capable of transmitting on frequencies from 150.000 to 173.390 per 47 CFR 90.20.

Also, the transmitter complies with 47 CFR Part 90.203(e) in that the operator cannot directly program the transmit frequencies using the normally accessible external controls. Equipment programming is the responsibility of Authorized Service Personnel.

Please contact me if you require any additional information.

Steve Palmer
President
